In this groundbreaking work, the author explores the profound insights of ancient traditions such as Taoism, Buddhism, and Hermeticism, and shows how they can be integrated with the latest findings of modern science to create a new understanding of the universe and our place within it.

The book begins with a comprehensive overview of the ancient wisdom traditions, examining their core teachings on the nature of reality, the human being, and the cosmos. The author then shows how these

teachings can be applied to our modern world, offering practical guidance for living a more meaningful and fulfilling life.

The book concludes with a vision of a new philosophy of wholeness, which integrates the insights of both ancient wisdom and modern science to create a comprehensive and transformative understanding of reality. This new philosophy offers a profound and inspiring vision of the cosmos and the human being, and it has the potential to change our world for the better.
