History of Preseli Bluestone

The history of Preseli Bluestone can be traced back to the Neolithic period. This was a time when people lived in small farming communities and used stone tools and weapons. Preseli Bluestone was one of the most important stones used by Neolithic people, and it was used to make a wide variety of objects, including axes, hammers, and arrowheads.

Preseli Bluestone was also used to build Stonehenge, one of the most famous prehistoric monuments in the world. Stonehenge is a large circular structure made up of standing stones. The stones were quarried from the Preseli Hills and transported to Stonehenge, a distance of over 200 miles. It is believed that Stonehenge was used as a ceremonial site, and it is thought that the Preseli Bluestone may have been used to create a sacred space.

Properties of Preseli Bluestone

Preseli Bluestone is a very hard and durable stone. It is also very resistant to weathering, which makes it an ideal material for building and construction. Preseli Bluestone is also said to have a number of healing properties. These properties include the ability to:

- Relieve pain
- Reduce inflammation
- Promote healing
- Enhance energy
