In a world where climate change is threatening to melt away our winters, *Shaped by Snow* is a powerful and inspiring call to action to protect the future of winter. Written by renowned environmentalist and author John Muir Edwards, *Shaped by Snow* is a gripping account of the fight to save our winters from the devastating impacts of climate change.

Edwards takes readers on a journey across North America, from the snow-capped mountains of Alaska to the frozen lakes of Minnesota, to meet the people who are on the front lines of the fight to save winter. He introduces us to skiers, snowboarders, snowmobilers, ice fishermen, hunters, trappers, and other winter enthusiasts who are passionate about protecting

the snowy landscapes they love. He also profiles scientists and researchers who are working to understand the impacts of climate change on winter and develop solutions to protect it.

*Shaped by Snow* is a deeply personal story for Edwards, who has spent his life skiing, snowboarding, and exploring the winter wilderness. He writes with a deep love and appreciation for the beauty and wonder of winter, and he is determined to do everything he can to protect it for future generations. Edwards is also a passionate advocate for climate action, and he believes that we must all work together to reduce our emissions and protect our planet.

*Shaped by Snow* is a must-read for anyone who loves snow and wants to protect it for future generations. It is a powerful and inspiring call to action that will leave you feeling hopeful and empowered.
