

Violence, Intolerance, and Political Culture in Sri Lanka and Australia

A Comparative Analysis

Violence and intolerance are two of the most pressing problems facing the world today. They can lead to instability, conflict, and even war. In some cases, they can also lead to the erosion of democratic values and institutions.

Sri Lanka and Australia are two countries that have both experienced violence and intolerance. In Sri Lanka, the civil war lasted for over 25 years and resulted in the deaths of thousands of people. In Australia, there have been a number of high-profile terrorist attacks in recent years. These attacks have led to increased fear and suspicion, and have made it more difficult for people to live together peacefully.
